

CONDOM SEQUENCE CARDS

SORT THE STATEMENTS INTO THE CORRECT ORDER

Check the expiry date on the packet and that there is a kite or CE mark

Carefully take it out of the packet making sure not to damage it with finger nails or jewellery

Put rolled up - condom on tip of penis

Carefully remove the condom

Put the condom on once the penis is erect (hard) and before there is any intercourse

Do not put the penis back into partner without a new condom

Squeeze the top of the closed end between your fingers and thumb to get rid of any trapped air

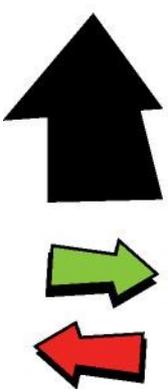

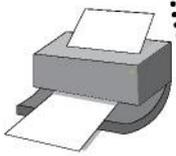

Wrap the condom in a tissue and throw it in the bin and wash hands

Unroll the condom all the way down the penis and pinch out any air left in the end

Use a new condom each time you have sexual intercourse & Wash your hands before use

After intercourse withdraw the penis before it completely loses its erection

As you withdraw the penis hold the rim of the condom so that no semen spills out
